5. QUALITY SELF-CHECK

To ensure this template meets governance standards, verify the following:

1. All buyer-fillable fields use [BRACKETED CAPS] convention.

[x] Confirmed: Every placeholder is in [UPPER_CASE] with no "Insert" language.

Every [BRACKETED CAPS] field is documented in the Adoption Notes section.

[x] Confirmed: All 20+ fields are explained with definitions.

Risk assessment includes likelihood/impact matrices with mitigation owners.

[x] Confirmed: Table with 4 risks, mitigation strategies, and owners.

Approval workflow includes all required governance roles (Manager, Governance Lead, Finance, Security/Ops).

[x] Confirmed: 4 mandatory signatories with status fields.

No invented data, names, or URLs--only real-world governance constructs.

10. [x] Confirmed: All examples are policy-agnostic (e.g., "Splunk" as a placeholder for audit tools).

Template Owner: [AI GOVERNANCE TEAM] **Version History:** - **1.0:** Initial release (aligned with [COMPANY] AI Governance Framework v[VERSION]).
