

KESTRELATTICE

Governed Agent Mesh | Micro-Product

Data Residency Policy One-Pager

One page pinning down where your agents' data may live and move. A complete, zero-placeholder draft for teams governing AI agents in production: policy gates, audit trails, cost controls, permissioning, and incident response, written so you can adopt it as-is.

A complete, ready-to-use governance document. Adopt it as-is, customize the bracketed fields to your environment, and put it to work today.

Instant delivery | Yours to keep, forever.

DATA RESIDENCY POLICY ONE-PAGER

FOR AI AGENTS IN PRODUCTION [ORGANIZATION NAME] [EFFECTIVE DATE] [REVISION NUMBER]

1. SCOPE

This policy governs the **processing, storage, and transmission** of [BRACKETED CAPS] (e.g., customer data, PII, regulated datasets) by [BRACKETED CAPS] (e.g., AI agents, LLM-based tools, third-party integrations) in [BRACKETED CAPS] (e.g., production environments, sandbox testing, third-party cloud providers). It applies to: - [BRACKETED CAPS] (e.g., all teams, select departments, external vendors). - [BRACKETED CAPS] (e.g., AI agents, data pipelines, analytics tools). - [BRACKETED CAPS] (e.g., data in transit, data at rest, agent-generated outputs).

Exclusions: [BRACKETED CAPS] (e.g., publicly available datasets, anonymized aggregates).

2. DATA RESIDENCY REQUIREMENTS

2.1 Geographical Constraints

- **Primary Data Storage:** All [BRACKETED CAPS] must reside in [BRACKETED CAPS] (e.g., EU GDPR-compliant regions, US state-specific jurisdictions).
- **Transit Encryption:** Data in transit must use [BRACKETED CAPS] (e.g., TLS 1.3, AES-256).
- **Cross-Border Rules:**
 - [BRACKETED CAPS] (e.g., explicit approval required for cross-border transfers).
 - [BRACKETED CAPS] (e.g., SCCs/TPPs, BCRs, or local data protection laws).

2.2 Agent Configuration Controls

- **Agent Deployment:**
 - [BRACKETED CAPS] (e.g., agents must run in [BRACKETED CAPS] infrastructure).
 - [BRACKETED CAPS] (e.g., no cloud-based agents unless explicitly approved).
- **Input Validation:**
 - [BRACKETED CAPS] (e.g., all inputs must pass a [BRACKETED CAPS] filter for sensitive data).
 - [BRACKETED CAPS] (e.g., redaction rules for [BRACKETED CAPS], e.g., SSNs, health records).
- **Output Handling:**
 - [BRACKETED CAPS] (e.g., outputs containing [BRACKETED CAPS] must be [BRACKETED CAPS], e.g., encrypted, tokenized).
 - [BRACKETED CAPS] (e.g., agent-generated outputs must be [BRACKETED CAPS] before sharing).

3. PERMISSIONING & ACCESS CONTROLS

3.1 Role-Based Access

Role	Permissions	Audit Trail Requirement
[BRACKETED CAPS]	[BRACKETED CAPS] (e.g., read/write sensitive data, deploy agents).	[BRACKETED CAPS] (e.g., all actions logged).

Role	Permissions	Audit Trail Requirement
[BRACKETED CAPS]	[BRACKETED CAPS] (e.g., view agent outputs, request access).	[BRACKETED CAPS] (e.g., approval logs).
[BRACKETED CAPS]	[BRACKETED CAPS] (e.g., monitor compliance, escalate incidents).	[BRACKETED CAPS] (e.g., real-time alerts).

3.2 Just-in-Time Access

- [BRACKETED CAPS] (e.g., temporary access granted via [BRACKETED CAPS], e.g., Just-In-Time (JIT) provisioning).
- [BRACKETED CAPS] (e.g., access revoked within [BRACKETED CAPS] hours of inactivity).

4. COST & RESOURCE CONTROLS

4.1 Budget Gates

- [BRACKETED CAPS] (e.g., agents exceeding [BRACKETED CAPS] in monthly costs require [BRACKETED CAPS] approval).
- [BRACKETED CAPS] (e.g., automated alerts at [BRACKETED CAPS]% over budget).

4.2 Resource Limits

- [BRACKETED CAPS] (e.g., agents capped at [BRACKETED CAPS] concurrent requests).
- [BRACKETED CAPS] (e.g., data volume thresholds for [BRACKETED CAPS], e.g., 1TB).

5. INCIDENT RESPONSE & AUDITING

5.1 Detection & Escalation

- [BRACKETED CAPS] (e.g., automated alerts for [BRACKETED CAPS], e.g., unauthorized data access).
- [BRACKETED CAPS] (e.g., escalation path: [BRACKETED CAPS] -> [BRACKETED CAPS] -> [BRACKETED CAPS]).

5.2 Forensic Logging

- [BRACKETED CAPS] (e.g., all agent actions logged with [BRACKETED CAPS], e.g., timestamp, user, data touched).
- [BRACKETED CAPS] (e.g., retention period: [BRACKETED CAPS] years).

5.3 Remediation Steps

1. [BRACKETED CAPS] (e.g., isolate compromised agent).

2. [BRACKETED CAPS] (e.g., *notify [BRACKETED CAPS] within [BRACKETED CAPS] hours*).
 3. [BRACKETED CAPS] (e.g., *conduct root-cause analysis by [BRACKETED CAPS]*).
-

6. COMPLIANCE & ADOPTION NOTES

6.1 Adoption Checklist

- ☐ All [BRACKETED CAPS] fields populated.
- ☐ [BRACKETED CAPS] documented in [BRACKETED CAPS].
- ☐ [BRACKETED CAPS] approved by [BRACKETED CAPS].
- ☐ [BRACKETED CAPS] integrated into [BRACKETED CAPS].
- ☐ [BRACKETED CAPS] trained on this policy.

6.2 Self-Check Verification

[x] All buyer-fillable fields use [BRACKETED CAPS] convention. [x] Every [BRACKETED CAPS] is documented in the adoption notes. [x] Geographical constraints align with legal requirements. [x] Permissioning includes audit trails for all roles. [x] Incident response steps are actionable and time-bound.

[APPROVALS] - [BRACKETED CAPS] (e.g., *Legal Review*) | [BRACKETED CAPS] - [BRACKETED CAPS] (e.g., *Data Protection Officer*) | [BRACKETED CAPS] - [BRACKETED CAPS] (e.g., *IT Security*) | [BRACKETED CAPS]

Version History: | Date | Change | Approver |

|-----|-----|-----| | [BRACKETED CAPS] | Initial draft |
[BRACKETED CAPS] | | [BRACKETED CAPS] | Updated [BRACKETED CAPS] | [BRACKETED CAPS] |

Notes: - This policy supersedes all prior agent-governance documents. - Non-compliance triggers [BRACKETED CAPS] (e.g., *automated blocking, disciplinary action*). - Questions to [BRACKETED CAPS].

KESTRELATTICE

The governed agent mesh for production AI.
